## CHALLENGE SUSTAINED

ADMIRAL HOWISON CANNOT  
SERVE ON SCHLEY COURT  
OF INQUIRY.

SESSION ENDS ABRUPTLY

Proceedings Are Stopped Until the  
Navy Department Designates a Successor—Probable That No Further  
Meetings Will Be Held This Week.  
Admiral Schley Well Pleased With  
the Outcome of His Protest.

Washington, Sept. 13.—Within three hours from the time of convening the Schley court of inquiry it was announced that Rear Admiral H. L. Howison was disqualified from serving as a member of the court and was excused from further duty. This brought proceedings to an abrupt termination and caused a temporary adjournment of the court in order to permit the navy department to designate an officer to succeed Admiral Howison. It had been expected that little official business would be accomplished on the opening day and the prompt decision as to Admiral Howison came somewhat as a surprise.

Prior to the court's convening a good sized crowd assembled at the Washington navy yard, where the court meets, to witness the coming of the prominent naval officers who were to take part in the proceedings. They came unannounced and unheralded and until the full dress uniform had been donned inside the quarters set aside for the actual sessions of the court there was nothing dramatic to the session. Admiral Dewey and Admiral Schley were naturally the principal figures in popular interest.

A salute of 17 guns, in honor of the admiral of the navy, marked the opening of the proceedings at 1 o'clock. The usual formalities on the opening of a court were transacted with dispatch. The first skirmish was opened by Admiral Schley, rising from his seat and speaking in strong voice, calmly and deliberately, challenging Admiral Howison's eligibility as a member of the court. Three witnesses were brought forward in support of this challenge, namely Mr. Francis S. Frost, Mr. William E. Spon and Mr. Foster Nicholls. They

Gave Very Positive Evidence as to expressions they had heard Admiral Howison make favorable to Admiral Sampson and unfavorable to Admiral Schley. Mr. Frost testified to a statement Admiral Howison had made to him at Boston while the witness was seeking news as a reporter. Mr. Spon testified to remarks made while he and the admiral were journeying back to this country from Europe on a transatlantic steamer, and Mr. Nicholls' conversation occurred during a business call at Admiral Howison's private residence at Yonkers, N. Y.

On concluding this testimony the question arose whether Admiral Howison would join issue with the statements made by the witnesses or would rest on his privilege to withhold any answer until he chose to submit it. The admiral met the issue by turning at once to Admiral Dewey and announcing that he would make a writ of rejoinder to the statements of the three witnesses. This rejoinder he prepared very speedily. While con-

ceding the accuracy of some points in the evidence it threw considerable doubt on other points and disclaimed any recollection of the talks said to have taken place on the transatlantic steamer.

It was not sufficient, however, to counteract the very direct testimony given by the three witnesses, and, moreover, the admiral himself in concluding his statement indicated plainly that he had no desire to remain on the court and was there simply in obedience to orders. He even appealed to his associates on the court to decide all doubtful questions as to his eligibility.

In Favor of Admiral Schley.

Before submitting the challenge to the determination of the court Mr. Rayner cross-examined Admiral Howison very minutely as to his personal sentiments toward Admiral Sampson and Admiral Schley and developed that Admiral Howison had expressed certain definite convictions as to Admiral Sampson's retention of authority and responsibility, even while he was absent temporarily from the fleet at Santiago. The challenge then was submitted to the court, which, under the circumstances, was narrowed to Admiral Dewey and Rear Admiral Benham, to pass upon. After hardly more than 15 minutes spent in retirement to the consultation room of the court Admiral Dewey briefly announced that the court sustained the challenge and that Admiral Howison would be excused from further attendance. The decision came so quickly and unexpectedly that it sent a flutter of agitation throughout the courtroom. There was a buzz of animated comment and Admiral Schley exchanged looks of satisfaction with his counsel. Admiral Dewey then at once closed the proceedings of the day by announcing that the court would adjourn indefinitely until the navy department had named an officer to succeed Admiral Howison. No further session of the court is probable until the early part of next week.

Situation Worse Than Reported.  
City of Mexico, Sept. 13.—Americans proceeding from South America state that the Colombian situation is far worse than reported by the papers. They say that probably 25,000 men have been killed since the beginning of the rebellion. One man claims to have seen 1,000 dead bodies piled in heaps and consumed by burning.

GOT HEAVY DAMAGES.  
Duluth Milliner Awarded \$2,000 for Breach of Promise.

Duluth, Sept. 13.—Miss Catherine Alward, a local milliner, was awarded a verdict of \$2,000 in the district court in her suit against Isaac Green, a street car conductor, for breach of promise.

About a year ago Green and Miss Alward were to be married, but a few days before the ceremony the man told her that he had changed his mind and had concluded to marry an old love in Canada. He did so and several months later Miss Alward brought suit. She asserted that her wounded feelings, disappointment and cost of trousseau were worth \$2,000 and the jury awarded her a verdict after 10 minutes' deliberation. She is 25 years old.

TRAMPS HOLD UP TRAIN.

Wisconsin Central Freight Crew Has a Battle With Hobos.

Chippewa Falls, Wis., Sept. 13.—A gang of tramps held up a Wisconsin Central freight train at Irvine at 2 a. m. One covered the engine crew with a revolver while another held the train crew under surveillance. The trainmen and tramps exchanged several shots, and James Ryan, a tramp, was shot through the leg. The engine was uncoupled from the train and ran to this city after police reinforcements. Five of the gang were arrested. Several house burglaries that have occurred here are laid to members of the gang.

## PRESIDENT MCKINLEY AT DEATH'S THRESHOLD

### Alarming Change Comes Suddenly And Chief Executive Is Sinking Rapidly.

### Officials at Washington Notified of the Critical Condition of the President.

LATER—President Has Improved.

SPECIAL TO THE DAILY DISPATCH.

Buffalo, N. Y., 2:30 p. m.—The following official bulletin was issued by president's physicians at 2:30: "President more than held his own this morning, and conditions justify the expectation of further improvement. Better than yesterday at this time. Pulse 123, temperature 99 4-10."

SPECIAL TO THE DISPATCH.

Buffalo, N. Y., Sept. 13, 11:30 a. m.—The last official bulletin was issued at 9 o'clock and no other official bulletin will be sent out until 2 o'clock. Messages from president Milburn's residence, however, state that the President is in a very critical condition and is sinking, although there is an expression of hope. Messages to officials at Washington are not disclosed, but they are known to be of a very gloomy aspect.

Rallied Somewhat.

SPECIAL TO THE DISPATCH.

Buffalo, N. Y., Sept. 13, 9:45 a. m.—Dr. Mann announced President rallied somewhat from severe sinking spell. "We are very anxious," said he, "but have not given up hope by any means."

SPECIAL TO THE DISPATCH.

Buffalo, N. Y., Sept. 13.—At an early hour this morning the following bulletin was posted by George B. Cortelyou, secretary to the president: President's condition is very serious and gives rise to the greatest apprehension. His heart does not respond to stimulants. He is conscious. The skin is warm and pulse small and regular easily compressible and 126; respiration 30; temperature 100.

P. M. RIXEY, M. D.

Buffalo, Sept. 13.—President McKinley experienced a sinking spell shortly after 2 a. m. The physicians administered restoratives to him with the hope of reviving him. A general call went out to the physicians and the members of the cabinet now in the city. Dr. Parke reached the house at 2:50 and shortly after him came Secretaries Hitchcock and Wilson.

The Associated Press was authorized to say that President McKinley is critically ill.

At the summoning of the physicians at that hour was regarded as significant, but no statement as to its purpose was immediately obtainable.

At 2:48 a. m. Abner McKinley, brother of the president, was called to the house. He came by carriage and pressed into the house at once. A messenger was dispatched at the same time to summon two absent nurses. The impression was created that the president had taken a serious turn for the worse, but no expression from those within the house was obtainable.

The following was issued by the president's physicians at 2:50 a. m.: "The president's condition is very serious and gives rise to the gravest apprehension. His bowels have moved well, but his heart does not respond properly to stimulation. He is conscious. The skin is warm and the pulse small, regular, easily compressible and 126; respiration, 30; temperature, 100."

All the Physicians Were There.

At 3 o'clock all the physicians were gathered at the bedside of the president. It was stated that digitalis was being administered to the president.

Several messengers were hurried from the house and it was understood that they carried dispatches to the absent members of the cabinet and the kin of the president. Additional lights burn for those in the Milburn home and the household is astir. Beyond the statement that the president is critically ill no further announcement has been authorized, but it is manifest that the wounded president faces a grave and menacing crisis. Alarm can be read in the actions of those to whose nursing and care he is committed. The scene about the house is a dramatic one. The attendants can be seen hurrying about behind the unshaded and brightly lighted windows and messengers come and go hastily through the guarded door. At 3:25 a. m. the president was so weak that he did not apparently suffer much. Strychnine, digitalis and other powerful heart stimulants did not produce effect and the worst was feared. His death might occur any time from heart exhaustion.

Mrs. McKinley has not yet been informed of the change for the worse.

A Slight Rally Reported.

Doctors Mann and Mynter left the house at 4 o'clock. The latter said: "The president is in better condition than he was an hour ago. We have not given up hope. He has rallied somewhat and we are going home."

Dr. Mann also said that the president rallied, but both physicians declined to go into details concerning the character of the heart stimulants administered or the cause of the collapse.

The rally at 4 o'clock was very slight. At 4:15 Secretary Cortelyou and Mr. Milburn emerged from the house and walked up the sidewalk inside the roped enclosure. Secretary Cortelyou said the president was resting, that four physicians were in the sick chamber, but he offered little in the way of encouragement. He did not consider the president in extremis, but the worst is feared from weakness of the heart.

Only one doctor and one nurse were now at the president's bedside. He was reported to be resting quietly.

At 6:30 Secretary Wilson said the president had a fighting chance.

Vice President Roosevelt has been informed of the president's condition and asked to hasten to Buffalo.

EARLIER REPORTS.

Food Eaten by the President Was Not Assimilated.

Buffalo, Sept. 13.—For the first time there was a bad strain in the news from the president's bedside. Perhaps the alarm it caused was exaggerated, but that genuine apprehension existed there can be no question. Morning will probably show whether the complication that has arisen is of a serious character. The food given to the president during the morning has not been properly assimilated and passed and the administration of food by the mouth has been discontinued. The president complained of fatigue and his pulse increased to 128. This was considered entirely too high for his temperature. One of the consulting physicians said that judging by medical records it should be 96. The acceleration of the pulse was attributed partly to the revulsion of the stomach against the food and the doctors privately assured Secretaries Wilson and Hitchcock, the president's brother, Abner McKinley, and others, assembled down stairs in the Milburn house that the food would probably pass away and that the president would soon be better.

The doctors frankly announced in their official bulletin that the president's condition was not so good. They are standing frankly by their resolution to frankly keep the people informed of the state of affairs in the sick room. Doctors Washin, Stockton and Rixey remained in the sick room and those who left after the consultation, contrary to their usual custom, slipped away to the side entrance. This in itself

was considered significant, to say the least, by the little army of newspaper men. Perhaps they were not ready to give verbal interpretation to the official bulletins to the newspaper men.

Dr. Stockton, a local practicing physician of wide reputation, was called in for the first time. It being ex-

plained that the complication that had arisen was one with which a physician and not a surgeon would have to deal. Secretaries Hitchcock and Wilson, who were at the Milburn house, said when they departed that there was no cause for alarm; that the trouble was in the stomach and not in the wound, and they believed the president's condition would be improved in the morning.

Doctors Washin, Stockton and Rixey remained at the Milburn house and were constantly in the room of the president. For hours the president failed to respond to the treatment to which he was subjected to relieve him of the disturbance caused by the failure of digestion and assimilation. The long process of the treatment added to the depression that existed, but the relief so desired finally came. He had two operations of the bowels within a few minutes. This gave great encouragement and changed the character of the bulletin which the physicians were even then writing.

HERR MOST ARRESTED.

Locked Up by the New York Police as a "Suspicious Person."

New York, Sept. 13.—Johann Most, the most widely known of New York anarchists and editor of Freiheit, the organ of the anarchists, was arrested by Central Office Detectives Knarch and Fernelson. The arrest was made in a saloon over which are offices of the newspaper. Herr Most objected volubly to the arrest, but to no purpose and he was locked up at police headquarters as "a suspicious person." Captain Titus refused to allow Most to see any one or to make a statement, the captain declaring he would not allow the prisoner to pose as a martyr before the public. The complaint against Most, which covers five and a half typewritten pages, is based on and quotes in full an editorial which Most printed in the Freiheit on Sept. 7. The editorial says in part:

"The greatest of all follies in the world is the belief that there can be a crime of any sort against despots and their accomplices. Such a belief is in itself a crime. Despots are outlaws, they are in human shape what the tiger is among beasts, to spare them is a crime. As despots make use of everything, treachery, murder, poison, etc., so it should be employed against them."

Most protested that he had committed no crime and all that had been printed in his newspapers were simply opinions in a new guise that had been printed and reprinted and voiced thousands of times in the last 50 years.

CZOLGOSZ STILL SILENT.

Buffalo Police Fail to Get Any Information From the Prisoner.

Buffalo, Sept. 13.—The insanity experts who are keeping close watch on Czolgosz say he is not breaking down. The police deny the report that the prisoner is being closely confined to his cell. They say he is allowed a little exercise daily, consisting of walking up and down the corridor outside his cell.

Superintendent Bull had another talk with the prisoner during the day, but failed to get any information from him.

"Will the Buffalo police in opposing the habeas corpus proceedings instituted by the Goldman woman in Chicago?" Superintendent Bull was asked. "I do not know," he replied. "District Attorney Penney has been indisposed for the past 48 hours and it is a subject we have not discussed."

A GREAT EVENT.

Praise for McKinley's Surgeons by London Medical Journals.

London, Sept. 13.—The British Medical Journal says: "The details in the McKinley bulletins are sufficient to justify the assertion that the treatment of the case in promptitude and complete efficiency will rank as one of the greatest achievements of abdominal surgery recorded."

The Journal highly compliments the skill and courage of the attending surgeons.

The Lancet warmly praises the thorough hospital arrangements at Buffalo. It says: "Considering the nature of the injury the president doubtless owed his life to the perfect emergency equipment of the exposition, which is characteristic of American thoroughness and was made for use and not for show."

MAGGIO BOUND OVER.

Refused to Say Anything About the Shooting of the President.

Santa Fe, N. M., Sept. 13.—Antonio Maggio, the alleged anarchist, has been taken from Silver City to Albuquerque. He was cross-examined but refused to divulge anything upon the subject of the president's assassination, although witnesses were presented to testify that he repeatedly predicted that the president would be assassinated before Oct. 1. He was bound over for hearing on the charge of conspiracy to murder.

Support Spain's Demands.

London, Sept. 13.—A dispatch from Tangiers says the Austrian, British, French, German and Russian representatives have sent a joint note to the sultan of Morocco supporting Spain's demands for the release of the Christian captives captured by the Moorish tribes, compensation for their capture and the punishment of the tribes.

Teacher and Scholars Punished.

St. Petersburg, Sept. 13.—The pupils of a young ladies' school near Count Tolstoy's residence who, with their teacher and other young persons of the neighborhood, called upon the count and presented him with flowers, have been arrested and their teacher has been dismissed.

Cleveland Returns to Princeton.

Princeton, N. J., Sept. 13.—Ex-President Grover Cleveland and family arrived here during the afternoon from Tynningham, Mass., where they spent the summer season. All appeared to be in excellent health. They were driven to their residences immediately after leaving the train.

Poured Kerosene on the Fire.

Delavan, Wis., Sept. 13.—Lizzie Endrich, a nurse at the summer home of Mr. and Mrs. Hugh Howison of Chicago, was burned to death, and Hilda Nelson, a cook, was fatally burned, the result of an explosion of kerosene caused by pouring oil from a 5-gallon can on a live fire.

Will Succeed Martinelli.

London, Sept. 13.—"I learn upon high authority," says the Rome correspondent of The Daily Chronicle, "that Mgr. Falconio will succeed Cardinal Martinelli as papal legate in the United States. Instead of Mgr. Calabrin, as previously reported."

FIVE WERE KILLED.

Three Explosions Occur in a Powder Mill at Oakland, N. J.

New York, Sept. 13.—Three explosions occurred in the works of the American Schultz Powder company in Oakland, N. J. Five men were killed and seven injured, two fatally. The first explosion was that of the boiler. Following almost immediately were two explosions, one of the magazine, the other in the mixing house. The latter is supposed to have been caused by a spark.

Miss Morrison Now at Liberty.

Lansing, Kan., Sept. 13.—Jessie Morrison, who was sent to the penitentiary here for five years for killing Mrs. Clara Wiley Castle, her rival, at Eldorado, was released during the day. She appeared well and happy and alone boarded a car for Excelsior Springs, Mo., where she will join her brother before going home to her parents. Miss Morrison was released on bond pending an appeal of her case to the state supreme court.

plained that the complication that had arisen was one with which a physician and not a surgeon would have to deal. Secretaries Hitchcock and Wilson, who were at the Milburn house, said when they departed that there was no cause for alarm; that the trouble was in the stomach and not in the wound, and they believed the president's condition would be improved in the morning.

Doctors Waadin, Stockton and Rixey remained at the Milburn house and were constantly in the room of the president. For hours the president failed to respond to the treatment to which he was subjected to relieve him of the disturbance caused by the failure of digestion and assimilation. The long process of the treatment added to the depression that existed, but the relief so desired finally came. He had two operations of the bowels within a few minutes. This gave great encouragement and changed the character of the bulletin which the physicians were even then writing.

HERR MOST ARRESTED.

Locked Up by the New York Police as a "Suspicious Person."

New York, Sept. 13.—Johann Most, the most widely known of New York anarchists and editor of Freiheit, the organ of the anarchists, was arrested by Central Office Detectives Knarch and Fernelson. The arrest was made in a saloon over which are offices of the newspaper. Herr Most objected volubly to the arrest, but to no purpose and he was locked up at police headquarters as a "suspicious person." Captain Titus refused to allow Most to see any one or to make a statement, the captain declaring he would not allow the prisoner to pose as a martyr before the public. The complaint against Most, which covers five and a half typewritten pages, is based on and quotes in full an editorial which Most printed in Freiheit on Sept. 7. The editorial says in part:

"The greatest of all follies in the world is the belief that there can be a crime of any sort against despots and their accomplices. Such a belief is in itself a crime. Despots are what laws, they are in human shape what the tiger is among beasts, to spare them is a crime. As despots make use of everything, treachery, murder, poison, etc., so it should be employed against them."

Most protested that he had committed no crime and all that had been printed in his newspapers were simply opinions in a new guise that had been printed and reprinted and voiced thousands of times in the last 50 years.

CZOLGOSZ STILL SILENT.

Buffalo Police Fail to Get Any Information From the Prisoner.

Buffalo, Sept. 13.—The insanity experts who are keeping close watch on Czolgosz say he is not breaking down. The police deny the report that the prisoner is being closely confined to his cell. They say he is allowed a little exercise daily, consisting of walking up and down the corridor outside his cell.

Superintendent Bull had another talk with the prisoner during the day, but failed to get any information from him.

"Will the Buffalo police co-operate with the Chicago police in opposing the habeas corpus proceedings instituted by the Goldman woman in Chicago?" Superintendent Bull was asked. "I do not know," he replied. "District Attorney Penney has been indisposed for the past 48 hours and it is a subject we have not discussed."

A GREAT ACHIEVEMENT.

Praise for McKinley's Surgeons by London Medical Journals.

London, Sept. 13.—The British Medical Journal says: "The details in the McKinley bulletins are sufficient to justify the assertion that the treatment of the case in promptitude and complete efficiency will rank as one of the greatest achievements of abdominal surgery recorded."

The Journal highly compliments the skill and courage of the attending surgeons.

The Lancet warmly praises the thorough hospital arrangements at Buffalo. It says: "Considering the nature of the injury the president doubtless owed his life to the perfect emergency equipment of the exposition, which is characteristic of American thoroughness and was made for use and not for show."

MAGGIO BOUND OVER.

Refused to Say Anything About the Shooting of the President.

Santa Fe, N. M., Sept. 13.—Antonio Maggio, the alleged anarchist, has been taken from Silver City to Albuquerque. He was cross-examined but refused to divulge anything upon the subject of the president's assassination, although witnesses were presented to testify that he repeatedly predicted that the president would be assassinated before Oct. 1. He was bound over for hearing on the charge of conspiracy to murder.

Support Spain's Demands.

London, Sept. 13.—A dispatch from Tangiers says the Austrian, British, French, German and Russian representatives have sent a joint note to the sultan of Morocco supporting Spain's demands for the release of the Christian captives captured by the Moorish tribes, compensation for their capture and the punishment of the tribes.

Teacher and Scholars Punished.

St. Petersburg, Sept. 13.—The pupils of a young ladies' school near Count Tolstol's residence who with their teacher and other young persons of the neighborhood, called upon the count and presented him with flowers, have been arrested and their teacher has been dismissed.

Cleveland Returns to Princeton.

Princeton, N. J., Sept. 13.—Ex-President Grover Cleveland and family arrived here during the afternoon from Tyngham, Mass., where they spent the summer season. All appeared to be in excellent health. They were driven to their residences immediately after leaving the train.

Poured Kerosene on the Fire.

Delavan, Wis., Sept. 13.—Lizzie Endrich, a nurse at the summer home of Mr. and Mrs. Hugh Howison of Chicago, was burned to death, and Hilda Nelson, a cook, was fatally burned, the result of an explosion of kerosene caused by pouring oil from a 5-gallon can on a live fire.

Will Succeed Martinelli.

London, Sept. 13.—"I learn upon high authority," says the Rome correspondent of The Daily Chronicle, "that Mgr. Falconio will succeed Cardinal Martinelli as papal delegate in the United States, instead of Mgr. Calabrin, as previously reported."

FIVE WERE KILLED.

Three Explosions Occur in a Powder Mill at Oakland, N. J.

New York, Sept. 13.—Three explosions occurred in the works of the American Schultz Powder company in Oakland, N. J. Five men were killed and seven injured, two fatally. The first explosion was that of the boiler. Following almost immediately were two explosions, one of the magazine, the other in the mixing house. The latter is supposed to have been caused by a spark.

Miss Morrison Now at Liberty.

Lansing, Kan., Sept. 13.—Jessie Morrison, who was sent to the penitentiary here for five years for killing Mrs. Clara Wiley Castle, her rival, at Eldorado, was released during the day. She appeared well and happy and alone boarded a car for Excelsior Springs, Mo., where she will join her brother before going home to her parents. Miss Morrison was released on bond pending an appeal of her case to the state supreme court.

One of the pleasant after-events, was that of last Saturday night, when the co-workers on the committee of the Trades and Labor assembly committee having the great celebration in hand, presenting to their chairman, Mr. H. C. Stivers, a gold locket, set with jewels on one side and engraved as follows on the other:

"Labor Day, 1901, to H. C. Stivers"

## SEVERE ARRAIGNMENT

COMMANDER-IN-CHIEF RASSIEUR SCORES PENSION COMMISSIONER EVANS.

## MAKES SERIOUS CHARGES

Complains of Unfairness and Dereliction in Office—Senator Hawley Defends Mr. Evans and Expresses Fulllest Confidence That the Administration Will Rectify Any Evils. Thanksgiving Mass Meeting.

Cleveland, Sept. 13.—The first day of the national convention of the Grand Army of the Republic was taken up with the reading of reports by the commander-in-chief, adjutant general, chaplain and the various committees. The proceedings of the convention were prefaced with the adoption of a resolution offered by General Daniel E. Sickles tendering to the president the affectionate congratulations of the Grand Army upon his rapid convalescence. The resolution was embodied in a telegram which was immediately sent to Mr. McKinley at Buffalo.

Commander-in-Chief Rassieur, in a spirited address, severely arraigned Commissioner of Pensions Evans upon his administration of the pension bureau. He complained of unfairness and dereliction of duty in office. General Sickles was careful to exonerate President McKinley and directed his attack at the head of the pension bureau direct.

Senator Hawley announced his intention of fighting any attack upon Commissioner Evans. He expressed the fullest confidence in the administration to rectify any existing evils in the pension department and counselled moderation. It was thought that the majority of the delegates were in accord with Senator Hawley's views. Definite action, it is thought, will likely be taken in reference to the matter at the morning session of the convention.

The report of the committee on credentials was adopted, the roll prepared by the adjutant general showing a total voting strength of 1,340, said to be the largest in point of attendance in the history of the organization.

For Next Year's Reunion.  
A number of cities are in the fight

for the next encampment of the G. A. R., Detroit, Denver, Atlanta, St. Paul, Salt Lake City and Charlestown, W. Va., being mentioned in the list of contestants.

The meetings of the Woman's Auxiliary to the G. A. R. had their first session in their annual convention during the day. The address of the national president and the adoption of the reports of other national officers and of the various committees consumed the first day's session.

The National Mexican War Veterans' association at its session during the day received messages from Mrs. Jefferson Davis, Admiral Dewey and Mrs. U. S. Grant.

Of the 11,000 veterans of the Mexican war only 5,000 now survive. Their average age is 79 years.

The thanksgiving mass meeting in praise and thanksgiving for the prospective recovery of President McKinley was attended by an immense outpouring of the people, including veterans and visitors. Senator M. A. Hanna presided as chairman. When he took his seat upon the platform he was greeted with continued applause. The many eminent speakers of the day, including Governor Nash, Judge William R. Day, Senator Fairbanks and others, spoke in most feeling terms upon the all-absorbing topic of the day.

## ASK STRINGENT LAWS.

Meeting of Condolence and Thanksgiving at Duluth.

Duluth, Sept. 13.—Four thousand people assembled at the armory to listen to speeches of condolence and thanksgiving for President McKinley and condemnation of anarchy. Congressman Morris, Former United States Senator Sabin, Bishops McGolrick and Morrison and others were the speakers. At the conclusion resolutions were adopted calling upon lawmakers of the city, state and nation, to enact adequate legislation to control inflammatory oratory against the government, the exclusion of anarchists from the United States and the death penalty for any person assaulting the president or vice president of the United States.

## SAVED THREE LIVES.

Heroic Action of Fourteen-Year-Old John Airis of Janesville, Wis.

Janesville, Wis., Sept. 13.—John Airis, the 14-year-old son of Mr. and Mrs. George Airis, is being praised as a hero because of the rescue of three persons who were drowning in Rock river. He saved the lives of Mrs. Frank Peters, her daughter, Pearl Peters, aged 11, and Fanny Little, aged 11. The girls were in wading when suddenly Mrs. Peters saw both step into a deep hole and sink out of sight. She ran to the river, plunged into the water with all her clothing on and she too went down. Young Airis then came to the rescue. He jumped in, and, with great effort, succeeded in bringing all three to shore.

H. C Stivers Recognized for His Efforts to Make Labor Day at West Superior a Success.

The following from the West Superior Leader will be of interest to the friends of C. H. Stivers, formerly a resident of this city:

Labor day, as we all know, was a splendid success, and those at the head of the great annual fete are entitled to not only praise from the Trades and Labor assembly, but the public at large who gave them every assistance in the way of moral and financial support. One of the pleasant after-events, was that of last Saturday night, when the co-workers on the committee of the Trades and Labor assembly committee having the great celebration in hand, presenting to their chairman, Mr. H. C. Stivers, a gold locket, set with jewels on one side and engraved as follows on the other:

"Labor Day, 1901, to H. C. Stivers." The committee consisted of A. J. O'Brien, of the Cigarmakers' union; T. G. Heritage, of the Dray Owners' union; Edwin Peterson, of the Coopers' union; P. J. Foley, of the Freight Handlers' union; George Borte, of the Carpenters' union; and W. C. Maddox, of the Switchmen's union.

They also presented a similar token of their regards to Miss Dulcie Schell, the Goddess of Liberty, and Dan Lund, for valuable services on Labor day.

Mr. Stivers made great efforts in behalf of the cause and is more than entitled to the recognition he has received at the hands of his co-workers.

## New Chinaware For Bohemia.

An entirely new china has just been introduced into London under the name of eosen aurora, says a London newspaper. It comes from Bohemia and has been awarded medals at several exhibitions. The prevailing colors of the ware are deep purple, crimson and orange with a dull bronze sheen. The designs are mostly in art nouveau style, simple motives obtained by lines and curves on vases of novel and artistic shape, scarcely any two pieces being exactly alike.

## SEVERE ARRAIGNMENT

COMMANDER-IN-CHIEF RASSIEUR SCORES PENSION COMMISSIONER EVANS.

## MAKES SERIOUS CHARGES

Complains of Unfairness and Dereliction in Office—Senator Hawley Defends Mr. Evans and Expresses Fulllest Confidence That the Administration Will Rectify Any Evils. Thanksgiving Mass Meeting.

Cleveland, Sept. 13.—The first day of the national convention of the Grand Army of the Republic was taken up with the reading of reports by the commander-in-chief, adjutant general, chaplain and the various committees. The proceedings of the convention were prefaced with the adoption of a resolution offered by General Daniel E. Sickles tendering to the president the affectionate congratulations of the Grand Army upon his rapid convalescence. The resolution was embodied in a telegram which was immediately sent to Mr. McKinley at Buffalo.

Commander-in-Chief Rassieur, in a spirited address, severely arraigned Commissioner of Pensions Evans upon his administration of the pension bureau. He complained of unfairness and dereliction of duty in office. General Sickles was careful to exonerate President McKinley and directed his attack at the head of the pension bureau direct.

Senator Hawley announced his intention of fighting any attack upon Commissioner Evans. He expressed the fullest confidence in the administration to rectify any existing evils in the pension department and counselled moderation. It was thought that the majority of the delegates were in accord with Senator Hawley's views. Definite action, it is thought, will likely be taken in reference to the matter at the morning session of the convention.

The report of the committee on credentials was adopted, the roll prepared by the adjutant general showing a total voting strength of 1,340, said to be the largest in point of attendance in the history of the organization.

For Next Year's Reunion. A number of cities are in the fight

for the next encampment of the G. A. R., Detroit, Denver, Atlanta, St. Paul, Salt Lake City and Charlestown, W. Va., being mentioned in the list of contestants.

The meetings of the Woman's Auxiliary to the G. A. R. had their first session in their annual convention during the day. The address of the national president and the adoption of the reports of other national officers and of the various committees consumed the first day's session.

The National Mexican War Veterans' association at its session during the day received messages from Mrs. Jefferson Davis, Admiral Dewey and Mrs. U. S. Grant.

Of the 11,000 veterans of the Mexican war only 5,000 now survive. Their average age is 79 years.

The thanksgiving mass meeting in praise and thanksgiving for the prospective recovery of President McKinley was attended by an immense outpouring of the people, including veterans and visitors. Senator M. A. Hanna presided as chairman. When he took his seat upon the platform he was greeted with continued applause. The many eminent speakers of the day, including Governor Nash, Judge William R. Day, Senator Fairbanks and others, spoke in most feeling terms upon the all-absorbing topic of the day.

## ASK STRINGENT LAWS.

Meeting of Condolence and Thanksgiving at Duluth.

Duluth, Sept. 13.—Four thousand people assembled at the armory to listen to speeches of condolence and thanksgiving for President McKinley and condemnation of anarchy. Congressman Morris, Former United States Senator Sabin, Bishops McGolrick and Morrison and others were the speakers. At the conclusion resolutions were adopted calling upon lawmakers of the city, state and nation, to enact adequate legislation to control inflammatory oratory against the government, the exclusion of anarchists from the United States and the death penalty for any person assaulting the president or vice president of the United States.

## SAVED THREE LIVES.

Heroic Action of Fourteen-Year-Old John Airis of Janesville, Wis.

Janesville, Wis., Sept. 13.—John Airis, the 14-year-old son of Mr. and Mrs. George Airis, is being praised as a hero because of the rescue of three persons who were drowning in Rock river. He saved the lives of Mrs. Frank Peters, her daughter, Pearl Peters, aged 10, and Fanny Little, aged 11. The girls were in wading when suddenly Mrs. Peters saw both step into a deep hole and sink out of sight. She ran to the river, plunged into the water with all her clothing on and she too went down. Young Airis then came to the rescue. He jumped in, and, with great effort, succeeded in bringing all three to shore.

## BUSINESS MEN'S DAY AT COUNTY FAIR.

Hon. Moses Clapp Addresses the People this Afternoon at Driving Park.

EXHIBITS ARE EXCELLENT.

The Races Yesterday Afternoon Were Greatly Enjoyed By All Present.

The weather was excellent for today's fair at Swartz driving park and this afternoon large crowds are on the ground. There are some good race events for the afternoon, and the two dogs, "Tops" and "Fritz," will make their ascension this afternoon.

Hon. Moses Clapp arrived from the east at noon and will speak from the grand stand at 3 o'clock. Hon. John Cooper, president of the State Fair Association, will also speak.

This is "business men's" day and all the stores in the city and places of business are closed this afternoon.

**THE EXHIBITORS.**  
To anyone who is in the least skeptical regarding the resources of Crow Wing county as a fruit producing region THE DISPATCH would respectfully invite attention to the exhibit in the fine arts building at Swartz driving park. To be sure most of the exhibit of apples, plums, grapes and currents comes from the Bay Lake country but the large table in the center of the main floor is laden with products that foretells the story of the future of Crow Wing county.

Those who have exhibits on this table are D. Archibald, G. A. Hunt, G. W. Hunt, N. Newgaard, M. Kneiff and M. K. Swartz. The apples especially are a marvel and the exhibit cannot be beaten in any state in the union. Of course the number of varieties would not compare with some exhibits but the rich growth and color of this fruit is a study for the most critical horticulturist. It is also said that the flavor of the apples grown in this soil is peculiarly delightful. M. K. Swartz has several trays of apples and plums grown within the city limits, one of the varieties being quite large.

In the building where the garden and farm produce is displayed Dodd & Betzold, Jacob Betzold and the poor farm have some great exhibits.

The Dodd & Betzold display is particularly attractive, showing the products of their garden labors. In the display there are nine varieties of sweet corn, seven of tomatoes, and four varieties of onions. They have one variety of potatoes, the "Brainerd beauty," which has yielded this year 300 bushels to the acre. Mr. Dodd was at the state fair with this potato and sold seed in eleven different states of the union. He will have about three car loads this year. The beautiful display of flowers and potted plants in the centre of the building is also attractive.

The poor farm has a great display of grasses, all kinds of grain and garden produce, which is a credit to Superintendent McCullough.

Some parties brought down a display of grains, etc., from the northern part of the county, nearly forty miles from Brainerd, and placed them on exhibition, but it is not known what the names of the exhibitors are. This is in a new country but recently populated and the showing is excellent.

The fine arts building now shows up well, there being a particularly good display this year of fancy work. Mrs. W. Hemstead has charge of the fine arts, Mrs. G. A. Hunt is superintendent of the textile fabric display and Mrs. A. M. Opsahl has charge of the fancy work.

There are in all something like 152 exhibitors at the fair, including the exhibition by the school children. There are 116 exhibitors not including these children. It is estimated by Assistant Secretary Wilson that the total number of exhibits will reach something between 550 and 600.

The following is the complete list of the exhibitors in the different divisions:

Division A. Horses, Henry Bouck, superintendent—R. Neill, Charles Cossette, M. K. Swartz and Iver Benson.

Division B. Cattle, H. B. McConnell, superintendent—J. L. Camp, F. C. Bolin, Mathew Betzold, Orton Graham, J. M. Elder, George McCullough and Iver Benson.

Division J. Textile Fabrics, Needle, Crochet and Fancy work, Mrs. G. A. Hunt and Mrs. A. M. Opsahl, superintendents—Miss Ester Gustafson, Mrs. W. F. Holst, Mrs. E. B. McCullough, Miss Mabel Hallett, Mrs. Annie Husby, Mrs. Conrad Isle, Mrs. E. R. Reagen, Mrs. A. D. Peterson, Mrs. J. A. Cochrane, Miss Ella Burns, Mrs. John Anderson, Miss Bertha Stadel, Mrs. Fred A. Division L. Miscellaneous, H. Grossman, superintendent—John Atkinson, Neil O'Brien, Mrs. Lena Beach, H. Grossman, Jennie Lee, Maud Leak, Richard Johnson, Mrs. Minnie Smith, Sylvia Smith, Mrs. N. H. Ingersoll, Miss Mildred Swartz, Mrs. E. R. Reagen, Mrs. F. W. Wieland, Jens Peterson, Robert Gustafson and Mrs. J. B. Blackburn.

The horse races at the fair yesterday afternoon were quite interesting. There were two events, the three-minute race, for a purse of \$50 and a one-half mile running race, for local horses only, for a purse of \$50.

The three-minute race was quite an interesting event. There were four entries as follows: Robert H., owned by M. K. Swartz; Calico, owned by Archie Purdy; Ned, owned by J. M. Elder, and Arnold, owned by Sam Delude.

It was the best three in five heats and the first heat was won by Calico, with Arnold second, Ned third and Robert H. fourth. The next heat went the same way. In the third heat Calico came in first but the judges set him back it being claimed that Jockey Tilley ran his horse. This gave Arnold first place in this heat with Calico second, Robert H. third and Ned fourth. There seemed to be some difficulty in holding Ned down so a change of drivers was made in the fourth heat and sure enough the horse won the heat but in the fifth heat again he was up in the air and Archie Purdy's Calico won the heat and race. Arnold got second money, Ned third and Robert H. fourth. Time: 2:52; 2:51; 2:54; 2:49; 2:54.

In the running race there were three entries, Tib, Billy the Kid, and Molly. Billy the Kid won the race in two straight heats. Tib and Molly had to run a third heat, being tied for second money. Molly got second money. Time: 1:51; 1:58; 1:54.

## THE STATE BOARD TILTS ASSESSMENTS.

State Board of Equalization Busy on the Personal Property Assessments.

SOME COMPARISONS MADE.

An Inclination on the part of the Board to Raise Most Everything.

The state board of equalization now in session in St. Paul is going over its work of fixing the county assessments and from all reports it seems that the board is raising most everything.

Real estate values were fixed last year for a biennial term, at a total of \$489,213,453. This year only personal property is being assessed, and from present indications there will be a substantial increase over last year's assessment which footed up \$98,803,235 after the \$100 exemption had been deducted from each assessment.

Last year the assessors' list aggregated \$111,063,000. The county boards of equalization raised them to \$114,230,923, and the state board clapped on another \$6,000,000, leaving the personal property valuation, including the exemptions, \$120,441,641.

This year the assessors' lists foot up \$120,087,366, and the county boards brought the amount up to \$128,666,730. Another raise of six millions if made would bring the personal property valuation up to about \$130,000,000, which exemptions would reduce to \$105,000,000. This added to the realty valuation, would bring the total up to \$194,000,000.

On this valuation the state revenue and school taxes are levied to the amount of 2.83 mills, apportioned as follows:

State school tax	1.00
University	.23
Soldiers' relief	.10
Funding tax	.20
State revenue	1.20

Total..... 2.83  
This would raise, for all purposes, about \$1,682,000.

Even at the present rate of increase, it will be a long while before the valuation is brought up to that of the period from 1892 to 1895. In the latter year it amounted to \$641,250,281, but in 1896 \$64,000,000 was taken from the valuation of town and city lots and buildings, and in 1900 there was a further reduction of \$2,000,000. The gradual increase in personal property assessments has not kept pace with this decrease in the real estate schedule.

The advocates of tax reform are waiting for the work of the tax commission, which it is hoped will enable the state to get at franchises, and to make an adequate assessment of the iron mines. If their hopes are realized, the real estate assessment and valuation on household goods, etc., may be still further reduced without a loss of revenue to the state.

This year's board of equalization, unable under the present laws to get at these large interests, is hoisting the personal property assessment all down the line. With the present low tax levy the state needs a larger valuation, and the board will put it on whatever it seems possible. Live stock and wagons and carriages have been tilted up on an average of five per cent, and some other schedules will receive still more heroic treatment.

Your boy will look well, feel well, be better in one of Linneman & Carlson's suits.

## APPROPRIATE RESOLUTIONS.

Passed by the Members of the Local W. C. T. U. on Assassination of President McKinley.

The regular monthly meeting of the W. C. T. U., was held on Tuesday afternoon with Mrs. J. Rhodes, Fifth street north. In the absence of the president, Mrs. B. A. Ferris, the chair was filled by Mrs. Clulow, vice president.

After devotional exercises attention was given to various lines of work engaged in by the W. C. T. U. Delegates were chosen to represent the union at the state convention soon to be held in Minneapolis, Mrs. Clulow being elected delegate at large and Mrs. Hughes alternate.

The following resolutions were adopted:

Whereas, the chief magistrate of our beloved land, Hon. Wm. McKinley has been the victim of a heinous crime, perpetrated by the bloody hand of the anarchist whose intention was murder.

Resolved, that the members of the W. C. T. U., of Brainerd, Minn., deeply deplore the fact that the life of our illustrious leader is in great peril from the injuries received from the bullet of his would-be assassin. And while we, as a body of Christian women, pray for the life and the rapid restoration to health of our honored President, we will continue to wage our peaceful war against, not only anarchy, but all the evils that are threatening to destroy the home and the life of our nation.

At the close of the business session a tempting supper was served for the benefit of the treasury. Mrs. Rhodes, the hostess, is a veteran in temperance work, having been an active worker in Ohio during crusade days. The members always gather with delight in her pleasant home to plan and pray for the interest of the temperance cause.

## AN AMERICAN TORTURED

Hippolyte Lambert Tells of Awful Cruelties by Venezuelans.

WAS STRUNG UP BY THE THUMBES.

Says He Was Thrust Into a Dungeon, Prodded With Bayonets by Soldiers and Was Barbarously Treated by Being "Trussed"—Covered With Bruises.

Hippolyte Lambert, a naturalized American citizen, who has for years been traveling through Central and South American countries organizing socialistic clubs among workmen, has returned to the United States via Santo Domingo. He arrived at New York recently on the Clyde line steamship New York.

Lambert tells a thrilling story of cruel treatment by Venezuelans, and his charges will be brought to the attention of the state department at Washington, says the New York Evening World. He says that for no apparent cause he was made prisoner by the police at Caracas and thrown into a dungeon. Lambert's story is as follows:

"I arrived at La Guayra on May 13 last and went there in search of employment as a cook. Failing to find work there, in the course of a few days I proceeded to Caracas and on May 20 registered at the United States consulate at the capital of Venezuela. On July 16 I met a friend, and we stepped into a barroom and had a glass of rum together. We had only been in the place a minute or so when the prefect and a squad of four policemen entered and arrested me and my friend. After some delay I was let go with the understanding that I would return to the station house on the following morning. This I agreed to.

"When arraigned in the station house a second time, I was searched, and my valise was demanded. I told the police that my valise was still at the hotel, and they sent there and got possession of my effects and papers. In my memorandum book they found the notes I had made for years concerning socialism and the condition of workmen in the different countries I had visited. They also found a copy of a French newspaper called Le Libere Parleur, which is an organ of the socialists, and two photographs.

"The discovery of these papers, however, made the Venezuelans very bitter against me, and they placed me incommunicado and threw me into a dungeon. I protested against such cruel treatment and repeatedly demanded to be put in communication with the American consul. This was refused, and to subdue me my jailers gave me twenty lashes with a heavy whip.

"On the afternoon of July 18 I was turned over to the military authorities and transferred by train to La Guayra. There I was placed in a military prison after protesting that I was a citizen of the United States and declaring that I wanted to speak with the American consul. I resisted with all my might and broke away from the soldiers who had before that butted me with their guns. They chased me about the prison yard with fixed bayonets, and about twenty of them succeeded in surrounding me.

"Several of them prodded me with their weapons, and some of the sores are still unhealed. When I was put in the military dungeon, I asked for a surgeon to dress my wounds, but the sentry only laughed at me.

"The whipping in the police station at Caracas was cruel indeed, but my treatment by the military at La Guayra was terrible. The guards were brutes, and on July 19 I told them they were killing me. They answered me with the butts of their muskets, which were poked through the bars of the dungeon. In doing so they struck me several times, and my sides were black and blue. On that same day they took me out of the cell for a little while and, tying my thumbs together, hoisted me up until my toes barely touched the ground. When lowered, I was in an exhausted condition and

more like a dead man. I was flung back into my cell. The next day I was again subjected to more cruelty.

"The guards on that occasion took me out of my cell and 'trussed' me. This mode of barbarity was to double me up like a jackknife, place a wooden stave under my knees and bringing my arms underneath the parts of the wood that projected and at the same time tying my hands together so that I was helpless. In this position I remained for what seemed to me at least half an hour with ten rifles lying across my back. Becoming unconscious from this cruel treatment, I was put back in the dungeon, and there I remained sick with fever until July 22, when I was informed that I had been exiled from the country."

**Big Cemetery For Chinese.**

A Chinatown guide told a reporter for the Washington Star that it is within the bounds of probability that hereafter Chinese who die in Washington may be interred in a Chinese cemetery which it is proposed to establish near Pittsburgh. The shipment of Chinese corpses on the transatlantic steamers is prohibited by law, it is said, and it is only the bones of dead Chinamen which are sent to the Flowery Kingdom. The body of a Chinaman is not allowed by his compatriots to permanently rest in alien soil, but at last the bones are gathered up and sent to that place which was the home of him who died. The Chinese cemetery at Pittsburgh will be, it is said, a large one, and Chinese dying within a wide radius will be interred there.

## BUSINESS MEN'S DAY AT COUNTY FAIR.

Hon. Moses Clapp Addresses the  
People this Afternoon at  
Driving Park.

EXHIBITS ARE EXCELLENT.

The Races Yesterday Afternoon  
Were Greatly Enjoyed By  
All Present.

The weather was excellent for today's fair at Swartz driving park and this afternoon large crowds are on the ground. There are some good race events for the afternoon, and the two dogs, "Tops" and "Fritz," will make their ascension this afternoon.

Hon. Moses Clapp arrived from the east at noon and will speak from the grand stand at 3 o'clock. Hon. John Cooper, president of the State Fair Association, will also speak.

This is "business men's" day and all the stores in the city and places of business are closed this afternoon.

### THE EXHIBITORS.

To anyone who is in the least skeptical regarding the resources of Crow Wing county as a fruit producing region THE DISPATCH would respectfully invite attention to the exhibit in the fine arts building at Swartz driving park. To be sure most of the exhibit of apples, plums, grapes and currents comes from the Bay Lake country but the large table in the center of the main floor is laden with products that foretell the story of the future of Crow Wing county.

Those who have exhibits on this table are D. Archibald, G. A. Hunt, G. W. Hunt, N. Newgaard, M. Kneiff and M. K. Swartz. The apples especially are a marvel and the exhibit cannot be beaten in any state in the union. Of course the number of varieties would not compare with some exhibits but the rich growth and color of this fruit is a study for the most critical horticulturist. It is also said that the flavor of the apples grown in this soil is peculiarly delightful. M. K. Swartz has several trays of apples and plums grown within the city limits, one of the varieties being quite large.

In the building where the garden and farm produce is displayed Dodd & Betzold, Jacob Betzold and the poor farm have some great exhibits.

The Dodd & Betzold display is particularly attractive, showing the products of their garden labors. In the display there are nine varieties of sweet corn, seven of tomatoes, and four varieties of onions. They have one variety of potatoes, the "Brainerd beauty," which has yielded this year 300 bushels to the acre. Mr. Dodd was at the state fair with this potato and sold seed in eleven different states of the union. He will have about three car loads this year. The beautiful display of flowers and potted plants in the centre of the building is also attractive.

The poor farm has a great display of grasses, all kinds of grain and garden produce, which is a credit to Superintendent McCullough.

Some parties brought down a display of grains, etc., from the northern part of the county, nearly forty miles from Brainerd, and placed them on exhibition, but it is not known what the names of the exhibitors are. This is in a new country but recently populated and the showing is excellent.

The fine arts building now shows up well, there being a particularly good display this year of fancy work. Mrs. W. Hemstead has charge of the fine arts. Mrs. G. A. Hunt is superintendent of the textile fabric display and Mrs. A. M. Opsahl has charge of the fancy work.

There are in all something like 152 exhibitors at the fair, including the exhibition by the school children. There are 116 exhibitors not including these children. It is estimated by Assistant Secretary Wilson that the total number of exhibits will reach something between 550 and 600.

The following is the complete list of the exhibitors in the different divisions:

Division A, Horses, Henry Bouck, superintendent—R. Neill, Charles Cossette, M. K. Swartz and Iver Benson.

Division B, Cattle, H. B. McConnell, superintendent—J. L. Camp, F. C. Bolin, Matthew Betzold, Orton Graham, J. M. Elder, George McCullough and Iver Benson.

Ingersoll, Miss Mildred Swartz, Mrs. E. R. Regen, Mrs. F. W. Wieland, Jens Peterson, Robert Gustafson and Mrs. J. B. Blackburn.

The horse races at the fair yesterday afternoon were quite interesting. There were two events, the three-minute race, for a purse of \$50 and a one-half mile running race, for local horses only, for a purse of \$50.

The three-minute race was quite an interesting event. There were four entries as follows: Robert H., owned by M. K. Swartz; Calico, owned by Archie Purdy; Ned, owned by J. M. Elder, and Arnold, owned by Sam Delude.

It was the best three in five heats and the first heat was won by Calico, with Arnold second, Ned third and Robert H. fourth. The next heat went the same way. In the third heat Calico came in first but the judges set him back it being claimed that Jockey Tilley ran his horse. This gave Arnold first place in this heat with Calico second, Robert H. third and Ned fourth. There seemed to be some difficulty in holding Ned down so a change of drivers was made in the fourth heat and sure enough the horse won the heat but in the fifth heat again he was up in the air and Archie Purdy's Calico won the heat and race. Arnold got second money, Ned third and Robert H. fourth. Time: 2:52; 2:51; 2:54; 2:49; 2:54.

In the running race there were three entries, Tib, Billy the Kid, and Molly. Billy the Kid won the race in two straight heats. Tib and Molly had to run a third heat, being tied for second money. Molly got second money. Time: 1:51; 1:58; 1:54.

## THE STATE BOARD TILTS ASSESSMENTS.

State Board of Equalization Busy  
on the Personal Property  
Assessments.

SOME COMPARISONS MADE.

An Inclination on the part of the  
Board to Raise Most  
Everything.

The state board of equalization now in session in St. Paul is going over its work of fixing the county assessments and from all reports it seems that the board is raising most everything.

Real estate values were fixed last year for a biennial term, at a total of \$489,213,453. This year only personal property is being assessed, and from present indications there will be a substantial increase over last year's assessment which footed up \$98,803,235 after the \$100 exemption had been deducted from each assessment.

Last year the assessors' list aggregated \$111,063,000. The county boards of equalization raised them to \$114,230,923, and the state board clapped on another \$6,000,000, leaving the personal property valuation, including the exemptions, \$120,441,641.

This year the assessors' lists foot up \$120,087,366, and the county boards brought the amount up to \$123,666,730. Another raise of six millions if made would bring the personal property valuation up to about \$130,000,000, which exemptions would reduce to \$105,000,000. This added to the realty valuation, would bring the total up to 594,000,000.

On this valuation the state revenue and school taxes are levied to the amount of 2.83 mills, apportioned as follows:

State school tax	1.00
University	.23
Soldiers' relief	.20
Funding tax	.20
State revenue	1.20

Total..... 2.83

This would raise, for all purposes, about \$1,682,000.

Even at the present rate of increase, it will be a long while before the valuation is brought up to that of the period from 1892 to 1895. In the latter year it amounted to \$641,250,281, but in 1896 \$64,000,000 was taken from the valuation of town and city lots and buildings, and in 1900 there was a further reduction of \$2,000,000. The gradual increase in personal property assessments has not kept pace with this decrease in the real estate schedule.

The advocates of tax reform are waiting for the work of the tax commission, which it is hoped will enable the state to get at franchises, and to make an adequate assessment of the iron mines. If their hopes are realized, the real estate assessment and valuation on household goods, etc., may be still further reduced without a loss of revenue to the state.

This year's board of equalization, unable under the present laws to get at these large interests, is hoisting the personal property assessment all down the line. With the present low tax levy the state needs a larger valuation, and the board will put it on whatever it seems possible. Live stock and wagons and carriages have been tilted up on an average of five per cent, and some other schedules will receive still more heroic treatment.

Your boy will look well, feel well, be better in one of Linneman & Carlson's suits.

The regular monthly meeting of the W. C. T. U., was held on Tuesday afternoon with Mrs. J. Rhodes, Fifth street north. In the absence of the president, Mrs. B. A. Ferris, the chair was filled by Mrs. Clulow, vice president.

After devotional exercises attention was given to various lines of work engaged in by the W. C. T. U. Delegates were chosen to represent the union at the state convention soon to be held in Minneapolis, Mrs. Clulow being elected delegate at large and Mrs. Hughes alternate.

The following resolutions were adopted:

Whereas, the chief magistrate of our beloved land, Hon. Wm. McKinley has been the victim of a heinous crime, perpetrated by the bloody hand of the anarchist whose intention was murder.

Resolved, that the members of the W. C. T. U., of Brainerd, Minn., deeply deplore the fact that the life of our illustrious leader is in great peril from the injuries received from the bullet of his would-be assassin. And while we, as a body of Christian women, pray for the life and the rapid restoration to health of our honored President, we will continue to wage our peaceful war against, not only anarchy, but all the evils that are threatening to destroy the home and the life of our nation.

At the close of the business session a tempting supper was served for the benefit of the treasury. Mrs. Rhodes, the hostess, is a veteran in temperance work, having been an active worker in Ohio during crusade days. The members always gather with delight in her pleasant home to plan and pray for the interest of the temperance cause.

## AN AMERICAN TORTURED

Hippolyte Lambert Tells of Awful Cruelties by Venezuelans.

WAS STRUNG UP BY THE THUMBS.

Says He Was Thrust Into a Dungeon, Prodded With Bayonets by Soldiers and Was Barbarously Treated by Being "Trussed"—Covered With Bruises.

Hippolyte Lambert, a naturalized American citizen, who has for years been traveling through Central and South American countries organizing socialist clubs among workmen, has returned to the United States via Santo Domingo. He arrived at New York recently on the Clyde line steamship New York.

Lambert tells a thrilling story of cruel treatment by Venezuelans, and his charges will be brought to the attention of the state department at Washington, says the New York Evening World. He says that for no apparent cause he was made prisoner by the police at Caracas and thrown into a dungeon. Lambert's story is as follows:

"I arrived at La Guayra on May 13 last and went there in search of employment as a cook. ## CAREER OF CZOLGOSZ.

President's Assailant Avowed  
Anarchist, but Great Coward.

FOLLOWER OF EMMA GOLDMAN.

He Accepted Her as the Leader of  
Anarchy and Placed Her Teachings  
Above All Others—Father Says His  
Son Ought to Hang For His Deed.  
Talk With His Stepmother.

The home of Leon Czolgosz, the assassin who shot President McKinley, in Cleveland and its environments were of just the right sort to encourage in his rather weak nature the ideas which led to the dreadful culmination in Buffalo.

The home is a humble one at 306 Fleet street, in the center of the poorest section of the Polish colony, and in almost every house in the immediate neighborhood the red flag of anarchy is the only flag that is respected.

Standing within a stone's throw of the Czolgosz home is White Eagle hall, the headquarters of the most violent group of anarchists in the United States and where murder for several years has been secretly and openly advocated as the only remedy for social conditions which prevent true liberty as such liberty is defined by the anarchist.

The streets, houses, saloons and little balls near by reek with the blackest sentiments and darkest deeds, and no one in the anarchistic group was filled with a more bitter hatred of existing things, rulers and governments and no one has uttered more violent sentiments against capitalists and the rulers of nations among these vicious vipers than Leon Czolgosz, the assassin, says the New York Journal. Two years ago Paul Czolgosz, the father of Leon Czolgosz, was the proprietor of the White Eagle hall. He had run the place for several years.

The hall is now dirty and bare, and the place is not kept as it was when Leon Czolgosz acted as janitor and looked after the place that he cared for more than anything else on earth.

It is related that Leon slept very often in the hall where the tales of blood, venom and hatred of the human race ran from black lips and still blacker hearts, so that he might be near to the spring of vicious sentiments.

In this place Leon Czolgosz listened to the pleas in favor of assassination from Emma Goldman, and from the day that she first appeared in White Eagle hall Leon Czolgosz accepted her as the leader of anarchy and placed her teachings above all others. About two years ago Paul Czolgosz gave up a small farm near Cleveland with several members of his family.

Leon did not take to work on the farm any more than he did to work in the city. He sought solitude and seemed to be always ill at ease when in the presence of others and particularly when strangers were around. He spent most of his time alone in the heavy woodland studying the pamphlets and literature circulated by Emma Goldman and other anarchists. He was naturally a coward and afraid of his shadow.

He would not fight or defend himself, and the only time that he would show any sign of the real temper which led him to Buffalo on his horrible mission was when his pet ideas of social relations were attacked. During his stay in the country, as he studied the doctrines of anarchy in solitude, he became more morose and wore upon his face the expression of an animal at bay.

Paul Czolgosz has a large family of children. He is living with his second wife. Paul Czolgosz, the father of the assassin, seemed to be deeply impressed by the enormity of the crime. He said: "I cannot believe that my son Leon did this terrible act, although it must be true. There cannot be any excuse for such a crime, and although he is my son, he ought to be hanged."

"I do not believe that he did this thing of his own accord. He could not originate such a crime. He must have been influenced by others and have been sent to do this deed. He was a good boy. He could be easily led. He was a tool of some one having a stronger mind. I do not know of the existence of any plot among anarchists in which my son was involved. I know my son's disposition well. He is not strong and would not think of killing any one unless it was suggested and forced upon him in some way that he could not resist."

Mrs. Czolgosz talked freely, and apparently there was no effort on her part to conceal anything in the history of her stepson and family.

"It must have been two months ago that Leon left home, and the last that we heard from him was that he was in Indiana. This was about two weeks ago, and he wrote that he was going far away. He did not say where he was going. He did say that we would probably never hear from him again. This was strange, of course, but Leon had the right to go where he liked. I cannot believe that he is the man who shot the president."

When assured that there was no doubt that it was her stepson who had attempted to kill the president and that he had become an anarchist through the lectures and teachings of Emma Goldman and other leaders, she appeared to be greatly surprised.

"I do not believe," said Mrs. Czolgosz, "that Leon was smart enough to be interested in these things. He never read any books on anarchy at home, and I do not believe that he could understand them. No one ever thought that Leon was quite right in his mind."

He was dull and was not interested in books. He had a severe illness about three years ago, and he has never been well since.

"He worked in the Cleveland Rolling mill until he was taken sick, and he has not done anything since. We moved on a farm at Stop 14, on the Chagrin Falls line, but there was nothing that Leon was fitted to do on the farm. My husband was kind to Leon and never forced him to do anything. He was not like other boys. If he shot the president, he must have been insane. He was a timid boy."

"There was no murder in him. He was the biggest coward I ever saw. Everybody knew that he did not have any spirit or courage. He would run away from his own shadow. He would not fight like other boys, and if a boy should threaten him he would run away. He was always bashful when any one was around, and I don't see how he could have gone into such a big crowd."

"Leon never complained about the government or anything. He was not discontented and seemed to be satisfied. He often said that he was not big and strong enough to work like other boys." He knew his brothers and father would take care of him. He liked this country. He never showed any ill will against the rich or the president. I cannot understand how he ever came to be an anarchist. He always thought his brother Michael was a great man because he was a soldier, fighting for his country. It is so strange that Leon could have changed so quickly and become so bad that he would try to kill the president."

## LUDLOW IN CUBA.

How the Well Known Soldier Be-  
came a General.

The late General Ludlow in social circles was a modest and unassuming gentleman, but in affairs pertaining to the army was energetic and aggressive as a soldier should be. In this respect he differed very much from the late General Charles G. Bartlett, who was a victim of the Northfield ferryboat disaster. Bartlett had such a kindly disposition that his friends used to say they did not see how he ever became a general. They thought when he came in front of the enemy he would be likely to say, "Boys, let's have a good dinner and talk this over instead of fighting about it."

Ludlow was an engineer and went down to Cuba to be assigned to duty by General Shafter. After the army landed he discovered that it was going to be a question of fighting, and his services as an engineer were not likely to be needed, so he asked General Shafter to assign him to a brigade in the line. "Why," said Shafter, "I thought you were an engineer?" "So I am, general," replied Ludlow, "but I am also a cavalryman, an artilleryman and an infantryman, as every well trained soldier is." "Well, what do you want?" said Shafter. "I would like to be assigned to a brigade," Ludlow replied. "Very well. Come around to see me tomorrow morning," said Shafter and turned away. The next morning Ludlow appeared promptly at Shafter's headquarters and asked if that assignment had been arranged. Meanwhile Ludlow had been around the camps and found that in one of the brigades of Lawton's division the death of one officer might result in the brigade being left in command of an inexperienced volunteer. The case was too important to be trifled with. He said to General Shafter that he had come to get that assignment. Shafter replied brusquely, as was his way, "Colonel Ludlow, I have no brigade to give you." Colonel Ludlow said, "Well, General Shafter, I will call around tomorrow morning at 9 o'clock for an assignment to the First brigade of the Second division of your corps." Shafter replied in effect that he was in command of the corps and would decide upon the proper commanders for his brigades. Not to be baffled, Colonel Ludlow said firmly: "General Shafter, I will report here at your headquarters at 9 o'clock tomorrow morning for assignment to the First brigade of the Second division of your corps. Good morning." The next morning very early an orderly brought an official assignment from General Shafter to Colonel Ludlow to take command of the First brigade of the Second division. This brigade was the one which in the battle of El Caney held the Spaniards in the trap while Chaffee's brigade and Capron's battery hammered them into submission. Shafter said afterward that he was very glad that at the critical period of the battle Colonel Ludlow was in the very spot selected by himself.

## VEGETABLES IN ALASKA.

Dr. Allen Predicts That Territory  
Will Raise Its Entire Supply.

Dr. E. W. Allen, assistant superintendent of experiment stations conducted by the agricultural department, has just returned after a ten weeks' tour of inspection of the stations in Alaska. Dr. Allen reports, according to the Washington Post, that all the hardy vegetables are being grown there, and he predicts that the time will come when Alaska will grow a sufficient supply of them.

He also says that wheat, oats, barley and rye have been matured at the stations, and he thinks it practicable to raise beef for the home market. He states that there is considerable inquiry for land along the coast from people living in northern Europe and predicts that the time will come when many of them will find more comfortable homes there than they now have.

After the army landed he discovered that it was going to be a question of fighting, and his services as an engineer were not likely to be needed, so he asked General Shafter to assign him to a brigade in the line. "Why," said Shafter, "I thought you were an engineer?" "So I am, general," replied Ludlow, "but I am also a cavalryman, an artilleryman and an infantryman, as every well trained soldier is." "Well, what do you want?" said Shafter. "I would like to be assigned to a brigade," Ludlow replied. "Very well. Come around to see me tomorrow morning," said Shafter and turned away. The next morning Ludlow appeared promptly at Shafter's headquarters and asked if that assignment had been arranged. Meanwhile Ludlow had been around the camps and found that in one of the brigades of Lawton's division the death of one officer might result in the brigade being left in command of an inexperienced volunteer. The case was too important to be trifled with. He said to General Shafter that he had come to get that assignment. Shafter replied brusquely, as was his way, "Colonel Ludlow, I have no brigade to give you." Colonel Ludlow said, "Well, General Shafter, I will call around tomorrow morning at 9 o'clock for an assignment to the First brigade of the Second division of your corps." Shafter replied in effect that he was in command of the corps and would decide upon the proper commanders for his brigades. Not to be baffled, Colonel Ludlow said firmly: "General Shafter, I will report here at your headquarters at 9 o'clock tomorrow morning for assignment to the First brigade of the Second division of your corps. Good morning." The next morning very early an orderly brought an official assignment from General Shafter to Colonel Ludlow to take command of the First brigade of the Second division. This brigade was the one which in the battle of El Caney held the Spaniards in the trap while Chaffee's brigade and Capron's battery hammered them into submission. Shafter said afterward that he was very glad that at the critical period of the battle Colonel Ludlow was in the very spot selected by himself.

## VEGETABLES IN ALASKA.

Dr. Allen Predicts That Territory  
Will Raise Its Entire Supply.

Dr. E. W. Allen, assistant superintendent of experiment stations conducted by the agricultural department, has just returned after a ten weeks' tour of inspection of the stations in Alaska. Dr. Allen reports, according to the Washington Post, that all the hardy vegetables are being grown there, and he predicts that the time will come when Alaska will grow a sufficient supply of them.

He also says that wheat, oats, barley and rye have been matured at the stations, and he thinks it practicable to raise beef for the home market. He states that there is considerable inquiry for land along the coast from people living in northern Europe and predicts that the time will come when many of them will find more comfortable homes there than they now have.
